

2Abroad Limited - the international communications specialist.

We are a UK-based specialist international calls company launched in 2002 with operations in 10 countries: UK, USA, Ireland, France, Spain, Germany, Belgium, Italy, Austria, Switzerland and the Netherlands.

Our fully automated systems route millions of minutes per month through our London switches to almost every destination worldwide (we can even route to ships and satellite phones). Unlike calling cards and some offshore service providers who choose VoIP and least cost routes, we route all traffic through Tier 1 carriers - providing premium quality lines at all times.

Whatever your international calling requirement, whether its occasionally calling a friend overseas or operating a base of several thousand mobile phones roaming globally, 2Abroad has a service tailored to your needs.

Our Brands

[UK2Abroad - the mobile roaming solution](#) enabling savings of up to 80% on the cost of using your mobile when travelling abroad. Keep your UK number but make local calls at local rates and international calls at massive savings

UK2Abroad launched in 2005 as one of the first services to provide an alternative to mobile roaming. We have been growing from strength-to-strength, launching market-beating rates (such as 10p/min mobile roaming in the USA) and revolutionary products (such as our Global SIM card) as the industry has evolved and European regulation has put more pressure on UK mobile network operators.

UK2Abroad is a recognised market leader with some key differentiators:

- **Keep Your Number™** - a UK first: keep your UK mobile number wherever you travel
- **Use your credit globally** with our global SIM card; total flexibility
- **Completely control your call spend** when you're abroad with our sophisticated online account management and save up to 80% on the cost of using your regular UK mobile

[Call2Abroad - for making calls from the UK, USA, Ireland, France, Spain, Germany, Belgium, Italy, Austria, Switzerland and the Netherlands](#) offering very low cost international calls to anywhere in the world from all mobile networks and landlines within 10 countries.

Focussing on low cost and ease of use, Call2Abroad is incredibly popular with travellers, expat communities and business looking to keep in touch with people abroad.

No accounts, no contracts, no hassle. Use from home or business, landline or mobile. Just pay as you go.
